

LAB#11

Azmay noor

Responsive Web Designing Using Bootstrap 5

OBJECTIVE: To design webpages using HTML, CSS & Bootstrap 5.

THEORY:

Introduction to Bootstrap

Bootstrap is a popular open-source framework for building responsive, mobile-first websites quickly and efficiently. It includes pre-designed components like navigation bars, buttons, modals, grids, and forms, along with a powerful grid system for creating layouts.

Key Features of Bootstrap 5

1. **Mobile-First Approach:** Optimized for designing responsive and mobilefriendly web applications.
2. **Pre-Styled Components:** Includes ready-to-use UI components like buttons, alerts, and cards.
3. **Flexbox and Grid System:** Simplifies layout creation with a robust grid system.
4. **Customizable:** Developers can override default styles or customize using SASS.
5. **No jQuery Dependency:** Bootstrap 5 has removed the jQuery dependency for faster performance.

Purpose of Using a CDN

A Content Delivery Network (CDN) is a network of servers distributed globally to deliver content more efficiently. When using Bootstrap via a CDN, the required files are served from the nearest server, ensuring faster load times and better performance.

Department of Computer Science

Advantages of Using a CDN for Bootstrap

1. **Speed:** Reduced latency due to files being served from a nearby server.
2. **Ease of Integration:** No need to download or host files locally.
3. **Caching:** Browsers often cache CDN resources, further improving load times.
4. **Updated Resources:** Always get the latest version of Bootstrap without manually updating files.

Getting Started with Bootstrap 5 Using a CDN**Prerequisites**

- A text editor (e.g., Visual Studio Code, Sublime Text, or Notepad++)
- Basic knowledge of HTML and CSS
- A modern web browser (e.g., Google Chrome, Mozilla Firefox)

Step1: Set Up a Basic HTML Template with Bootstrap 5 CDN □ Open your text editor and create a new file named **index.html**.

Step2: Add the Bootstrap 5 CDN

- Copy and paste the following code inside the <head> section of your HTML file.

Department of Computer Science

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width,
    initialscale=1.0">
  <title>Bootstrap 5 Demo</title>
  <!-- Bootstrap CSS CDN -->
  <link
href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.0/dist/css/bootstra
p.min.css" rel="stylesheet">
</head> <body>
  <h1 class="text-center text-primary">Welcome to Bootstrap 5</h1>
  <!-- Option 1: Bootstrap Bundle with Popper -->
  <script
src="https://cdn.jsdelivr.net/npm/bootstrap@5.3.0/dist/js/bootstrap.b
undle.min.js" integrity="sha384-
MrcW6ZMFYlzcLA8NI+NtUVF0sA7MsXsP1UyJoMp4YLEuNSfAP+JcXn/tW
tlaxVXM" crossorigin="anonymous">
</script>
</body>
</html>
```

Step3: Open in a Browser

- Save the file and open it in your browser using **live server** to see the styled heading.

Create a Responsive Layout Using the Grid System**Add a Bootstrap Container**

- Modify the **<body>** section to include the following grid structure

```
<body>
  <div class="container">
```

Department of Computer Science

```
<div class="row">
  <div class="col-md-4 bg-primary text-white">Column 1</div>
  <div class="col-md-4 bg-success text-white">Column 2</div>
  <div class="col-md-4 bg-danger text-white">Column 3</div>
</div>
</div>
</body>
```

Explanation

- The **container** class creates a responsive container.
- The **row** class defines a horizontal group of columns.
- The **col-md-4** class creates columns that span 4 grid spaces each (out of 12) on medium devices and larger.

Add a Navbar Component**Insert Navbar Code**

- Replace the **<body>** section with the following code to add a responsive navigation bar

Department of Computer Science

```
<body>
  <nav class="navbar navbar-expand-lg navbar-light bg-light">
    <div class="container-fluid">
      <a class="navbar-brand" href="#">Brand</a>
      <button class="navbar-toggler" type="button"
toggle="collapse" data-bs-target="#navbarNav">
        <span class="navbar-toggler-icon"></span>
      </button>
      <div class="collapse navbar-collapse" id="navbarNav">
        <ul class="navbar-nav">
          <li class="nav-item">
            <a class="nav-link active" href="#">Home</a>
          </li>
          <li class="nav-item">
            <a class="nav-link" href="#">Features</a>
          </li>
          <li class="nav-item">
            <a class="nav-link" href="#">Pricing</a>
          </li>
        </ul>
      </div>
    </div>
  </nav>
</body>
```

Explanation

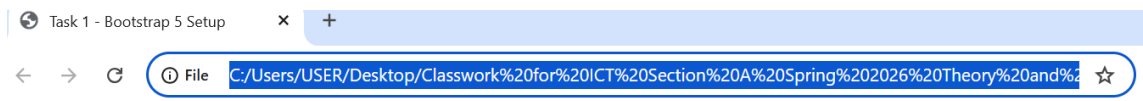

- The **navbar** class creates a navigation bar.
- The **navbar-toggler** button toggles the visibility of the menu on smaller screens.
- The **navbar-expand-lg** class makes the navbar responsive for larger devices.

Department of Computer Science

Lab Activity#1

Setup Bootstrap 5 with CDN

1. Create **task1.html**.
2. Set up a basic Bootstrap 5 template with:
 - Correct DOCTYPE and HTML structure
 - Viewport meta tag
 - Bootstrap CSS CDN link
 - Bootstrap JS bundle CDN script
3. Add a **heading** with Bootstrap utility classes (**text-center text-primary mt-5**).
4. Test that Bootstrap is working by adding a **styled button (btn btn-success)**.

Welcome to Bootstrap 5

Click Me

```

C:\Users > USER > Desktop > Classwork > Spring 2026 Theory and Lab Section A - Classroom Files > task6.html > @html
1  <!DOCTYPE html>
2  <html lang="en">
3  <head>
4      <meta charset="UTF-8">
5      <meta name="viewport" content="width=device-width, initial-scale=1.0">
6      <title>Task 1 - Bootstrap 5 Setup</title>
7
8      <!-- Bootstrap 5 CSS CDN -->
9      <link href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css" rel="stylesheet">
10 </head>
11 <body>
12
13     <!-- Heading -->
14     <h1 class="text-center text-primary mt-5">
15         Welcome to Bootstrap 5
16     </h1>
17
18     <!-- Styled Button -->
19     <div class="text-center mt-4">
20         <button class="btn btn-success">
21             Click Me
22         </button>
23     </div>
24
25     <!-- Bootstrap 5 JS Bundle CDN -->
26     <script src="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/js/bootstrap.bundle.min.js"></script>
27
28 </body>
29 </html>

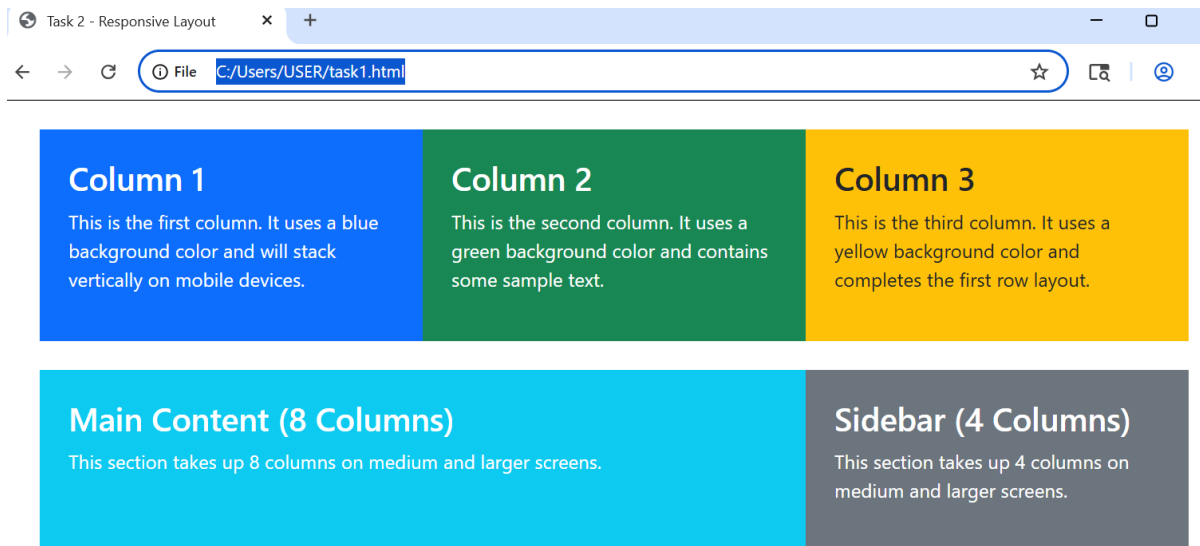

```

Department of Computer Science

Lab Activity#2

Practice Bootstrap Grid System

1. Create **task2.html**.
2. Create a responsive layout with:
 - A container
 - A row with **3 equal columns** on desktop (**col-md-4**)
 - On mobile, columns should stack vertically
 - Each column should have different background colors and padding
 - Add dummy content (heading + paragraph) in each column
3. Add a **second row** with **2 columns** (one taking 8 columns, the other 4 columns).

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6   <title>Task 2 - Responsive Layout</title>
7
8   <!-- Bootstrap 5 CSS CDN -->
9   <link href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css" rel="stylesheet">
10 </head>
11 <body>
12
13   <div class="container mt-4">
14
15     <!-- First Row: 3 Equal Columns -->
16     <div class="row">
17       <div class="col-md-4 bg-primary text-white p-4">
18         <h3>Column 1</h3>
19         <p>
20           This is the first column. It uses a blue background color
21           and will stack vertically on mobile devices.
22         </p>
23       </div>
24
25       <div class="col-md-4 bg-success text-white p-4">
26         <h3>Column 2</h3>
27         <p>
28           This is the second column. It uses a green background color
29           and contains some sample text.
30         </p>
31       </div>
32     </div>
33
34     <!-- Second Row: 2 Columns (8 and 4) -->
35     <div class="row">
36       <div class="col-md-8 bg-info text-white p-4">
37         <h3>Main Content (8 Columns)</h3>
38         <p>
39           This section takes up 8 columns on medium and larger screens.
40         </p>
41       </div>
42       <div class="col-md-4 bg-dark text-white p-4">
43         <h3>Sidebar (4 Columns)</h3>
44         <p>
45           This section takes up 4 columns on
46           medium and larger screens.
47         </p>
48       </div>
49     </div>
50   </div>
51 </body>
52 </html>
```

Department of Computer Science

```
2 <html lang="en">
11 <body>
13   <div class="container mt-4">
16     <div class="row">
25       <div class="col-md-4 bg-success text-white p-4">
29         and contains some sample text.
30       </p>
31     </div>
32
33     <div class="col-md-4 bg-warning p-4">
34       <h3>Column 3</h3>
35       <p>
36         This is the third column. It uses a yellow background color
37         and completes the first row layout.
38       </p>
39     </div>
40   </div>
41
42   <!-- Second Row: 8 + 4 Columns -->
43   <div class="row mt-4">
44     <div class="col-md-8 bg-info text-white p-4">
45       <h3>Main Content (8 Columns)</h3>
46       <p>
47         This section takes up 8 columns on medium and larger screens.
48       </p>
49     </div>
50
51     <div class="col-md-4 bg-secondary text-white p-4">
52       <h3>Sidebar (4 Columns)</h3>
```

```
53     <p>
54       This section takes up 4 columns on medium and larger screens.
55     </p>
56   </div>
57 </div>
58
59 </div>
60
61 <!-- Bootstrap 5 JS Bundle CDN -->
62 <script src="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/js/bootstrap.bundle.min.js"></script>
63
64 </body>
65 </html>
```

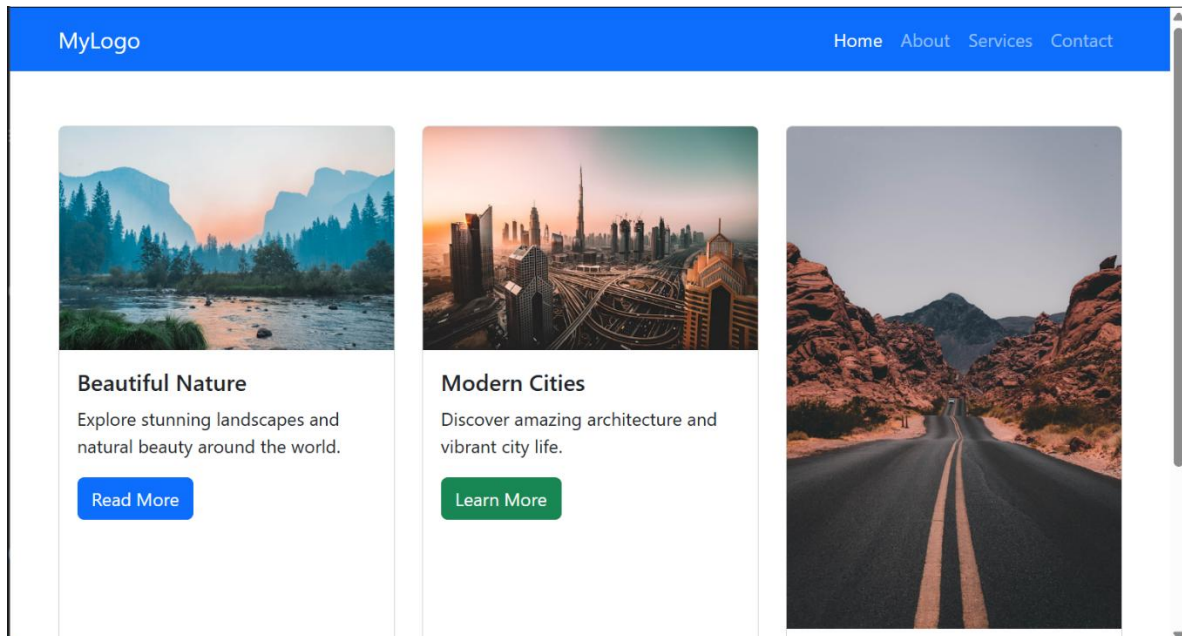

Lab Activity#3

Bootstrap Components – Navbar & Cards

1. Create **task3.html**.
2. Build:
 - A **responsive navbar** with:
 - Brand/logo text
 - **4 navigation links** (Home, About, Services, Contact)
 - A working **toggler button** for mobile
 - Below the navbar, add **3 Bootstrap cards** in a row with:
 - An image (placeholder)

Department of Computer Science

- Card title, Card text and A button
- Use the **grid system** to make cards responsive.

```
1 <!DOCTYPE html>
2 <html lang="en">
3 <head>
4   <meta charset="UTF-8">
5   <meta name="viewport" content="width=device-width, initial-scale=1.0">
6   <title>Task 3 - Bootstrap Navbar and Cards</title>
7
8   <!-- Bootstrap 5 CSS -->
9   <link href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.3/dist/css/bootstrap.min.css" rel="stylesheet">
10 </head>
11 <body>
12
13   <!-- Navbar -->
14   <nav class="navbar navbar-expand-lg navbar-dark bg-primary">
15     <div class="container">
16       <a class="navbar-brand" href="#">MyLogo</a>
17
18       <button class="navbar-toggler" type="button"
19         data-bs-toggle="collapse"
20         data-bs-target="#navbarNav">
21         <span class="navbar-toggler-icon"></span>
22       </button>
23
24       <div class="collapse navbar-collapse" id="navbarNav">
25         <ul class="navbar-nav ms-auto">
26           <li class="nav-item"><a class="nav-link active" href="#">Home</a></li>
27           <li class="nav-item"><a class="nav-link" href="#">About</a></li>
28           <li class="nav-item"><a class="nav-link" href="#">Services</a></li>
29           <li class="nav-item"><a class="nav-link" href="#">Contact</a></li>

Lab Activity#4

Bootstrap Forms & Buttons

1. Create **task4.html**.
2. Create a contact form using Bootstrap form classes with:
 - Name field (text input)
 - Email field (email input)
 - Message field (textarea)
 - A checkbox for newsletter subscription
 - Submit button styled with Bootstrap button classes

Department of Computer Science

3. Style the form with spacing utilities (**mb-3, mt-4**).

BSCS26201025 **primary, secondary, outline)** below the form.

Lab Activity#5

Responsive Layout with Images

1. Create **task5.html**.
2. Build a hero section with:
 - A Jumbotron-like section (using **container** and **py-5**)
 - A background color or image
 - Centered heading and paragraph
 - Two buttons (different styles)
3. Below it, create an image gallery with:
 - **4 images** in a responsive grid (row with col-md-3) □ Images should use **img-fluid** class □ Add **captions** below each image.
 -

Lab Assignment

Create a Simple Travel Blog Website Using Bootstrap 5

Requirements:

1. Header Section:

- Include a **navigation bar** with the blog name/logo, links to Home, Destinations, About, and Contact sections.

2. Hero Section:

- Add a large **banner image** with a tagline (e.g., "Discover the World with Us!").

3. Destinations Section:

- Use **cards** to display at least 4 destinations with the following details:
 - Destination name.
 - A short description.
 - An image of the destination.

4. Travel Stories Section:

- Create a **carousel** to showcase 3 travel stories, each with:
 - A title.
 - A short description. ▪ An image.

5. About Section:

- Add a **responsive layout** with text and an image describing the blog's purpose.

6. Contact Section:

- Create a **form** with fields for:
 - Name.
 - Email.
 - Message.

7. Footer Section:

- Add a footer with:
 - Social media links (icons). ▪ Copyright text.

Department of Computer Science

Additional Requirements: □ Use

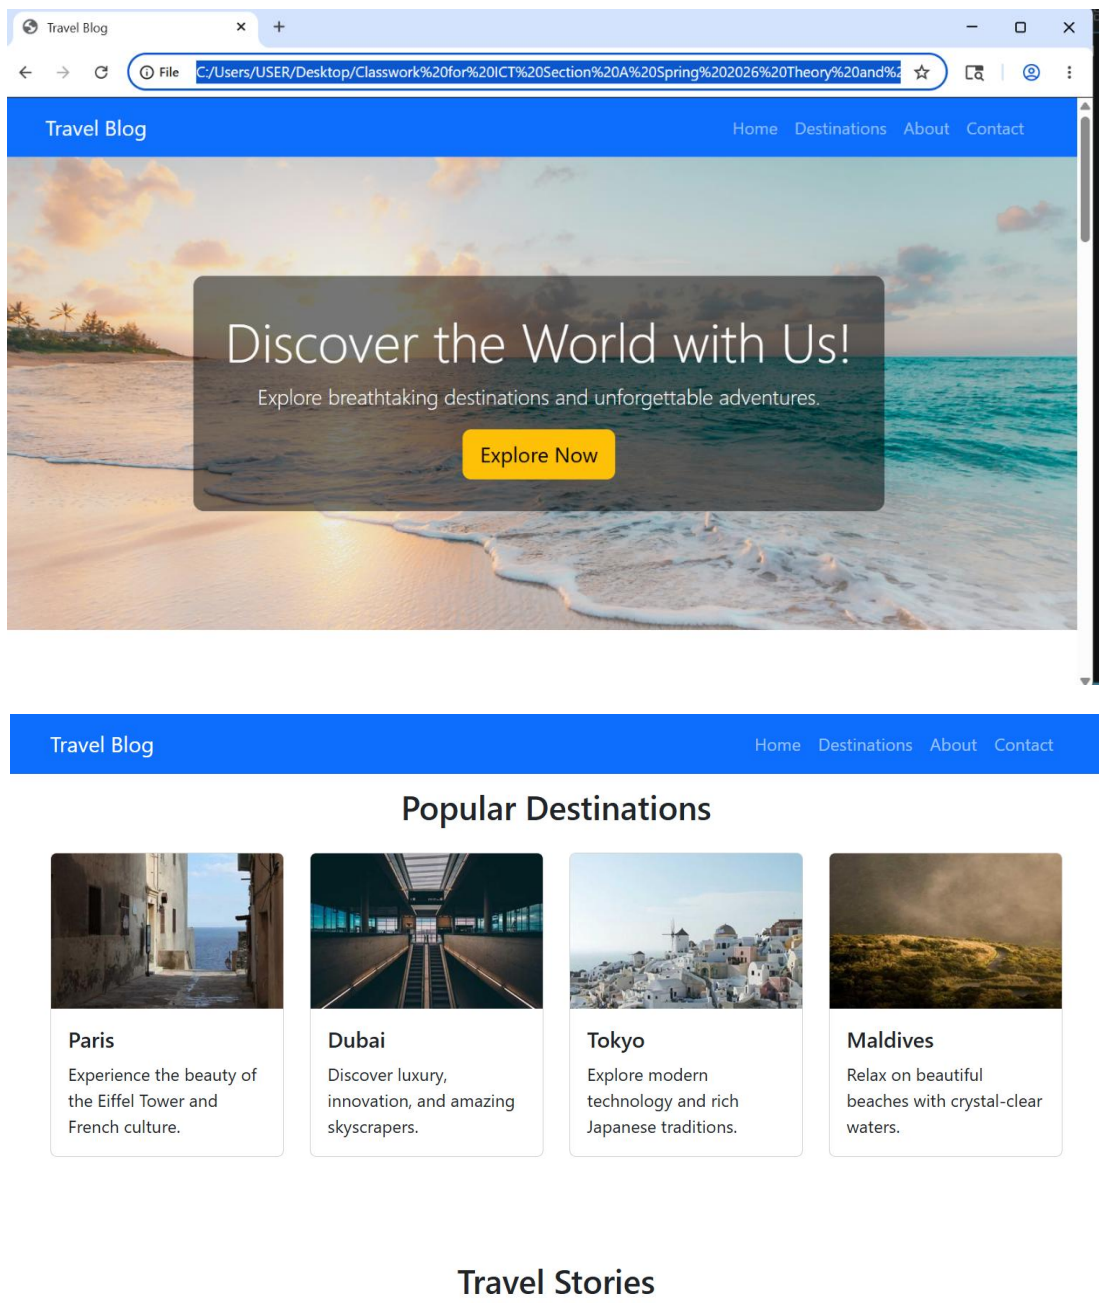

Bootstrap 5 CDN for styling.

- Include responsive design to ensure compatibility with mobile, tablet, and desktop devices.
- Use at least three Bootstrap components (e.g., navbar, carousel, cards, forms).

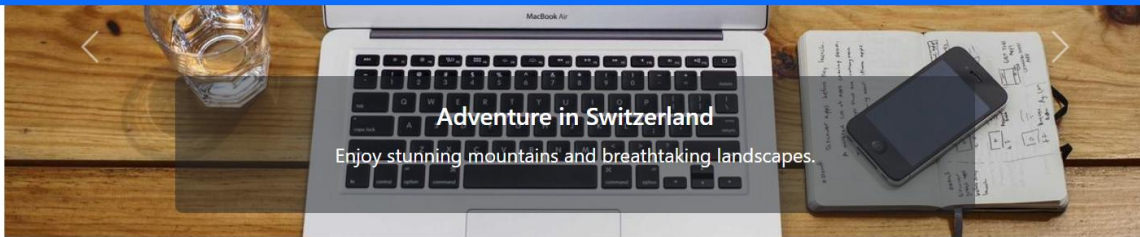

Deliverables:

- A single HTML file containing the travel blog design.
- Submit the code and a screenshot of the website preview.
